

Springfield Public Schools  
**Kindergarten Registration**

**All children who turn 5 BEFORE August 1, 2010, and who reside within the Springfield Public School District must register with their home school and receive a developmental screening. This year, we will have 3 different types of registration, depending on your child's home school and current Pre-K enrollment. Please read the following sections carefully. If you have questions, please call 523-1160 for assistance.**

**1.** If your child is currently enrolled in **Wonder Years, Early Childhood Special Education, Integrated Classroom, Head Start or Junior Kindergarten** at Harrison Elementary, their screenings will be conducted in your child's classroom. A registration packet will go home with your child sometime in February or March. You will need to plan to drop off the registration packet at your child's Kindergarten school anytime during school hours the week of March 15<sup>th</sup> –March 19<sup>th</sup>. Please plan to bring your child's immunization record, social security card or number, birth certificate and proof of residence when you drop off the registration packet.

**2.** The following schools will hold **Kindergarten Registration** as detailed below. You will be able to schedule a **screening** at your school's registration. Please plan to bring your child's immunization record, social security card or number, birth certificate and proof of residence when you come for registration. If you have questions, please call your child's school.
